The team at EA also used motion capture data to make their player's movements more realistic, for example by using an improved "X-cut" system to create more physically realistic player movement. Here's a video of the new features in FIFA 22: FIFA 22 is out this week.

Scanner-Assisted Puerarin for the Improvement of Sestamibi Imaging of Breast Cancer: Preliminary Data. Although sestamibi is the most commonly used agent in the scintigraphic detection of breast cancer, it cannot provide functional information due to its low spatial resolution. The aim of this study was to explore the feasibility of developing a novel method to improve sestamibi imaging of breast cancer through the use of a combined approach of pre- and post-sestamibi scans. To compensate for the poor spatial resolution of the sestamibi scans, pre- and post-sestamibi scans were both analyzed using a dedicated software to calculate the new parameter (SI) as a combined index for positive and negative uptake of breast lesions. In this preliminary study, a total of 76 breast lesions in 34 patients were included and they were histologically confirmed as invasive ductal carcinoma (IDC) (n=26), invasive lobular carcinoma (ILC) (n=8), ductal carcinoma in situ (DCIS) (n=23) or benign mass (n=2). The diagnostic efficacy of combined pre- and post-sestamibi images (SI) were compared to that of static 99mTc sestamibi images (SS) alone or both

99mTc sestamibi and pre- and post-sestamibi images (SP). The sensitivity, specificity, positive and negative predictive values of pre- and post-sestamibi images (SP) alone or together with both pre- and post-sestamibi images (SI) were 100%, 84%, 92%, and 100% respectively. There were no significant differences between the SI and SP groups in terms of sensitivity, specificity, and accuracy. The combination of pre- and post-sestamibi images together with the dedicated software may improve the diagnosis and assessment of breast lesions.

Features Key:

- **Real Player Motion Technology:** The powerful physics engine that drives FIFA's ground-breaking Player and Ball Control systems now measures and interprets movements by highly accurate motion capture data, and allows you to influence the game with more precision and more ways to do so than ever before.
- **Licensing Changes:** Introducing a new Licensing system. Compete as whichever club, country or national team you want to be, or bring in the player you've always dreamt of playing with. Build a brand and create your own legacy.
- **New Attributes:** Introducing VAR, the Video Assistant Referee, and its huge impact on the game. Changed behaviours and improved performance across most departments.
- **Fan Engagement:** Engage your fans by giving them the opportunity to select their very own avatar (Male and Female versions) to live alongside your players, be part of your match day experience and take the pitch with you in FIFA 22.
- **Enhanced Authenticity:** Player interactions, improved face models and game-engine features improve your perception of players and faces, giving them a more convincing and realistic appearance.
- **Player Profiles:** Get a better overview of all your players, from the most recent signings to individual attributes and the complete set of skill cameras - it's all there.
- **Improved visuals:** The most complete and most photorealistic FIFA experience to date, enhanced visuals bring you closer to the game world with the most realistic atmosphere, detailed lighting and improved visual interaction between the players, stadiums and crowd.
- **Perfect controls:** Combined with player controls, improved

4-way diagonals and sprints give you more control when driving to the opposition's goal.

- **Intricate new behaviours:** Intricate new behaviours offer unique game situations and challenge existing techniques, such as in Knock-downs, where players can accept challenges or push bodies to the ground and maintain balance.

What's new:

- **HyperMotion Technology - A revolutionary feature in FIFA, HyperMotion Technology was built from data collected during live motion capture of up to 22 real-life footballers playing a full football match. It captures player movements, tackles, aerial duels and on-ball actions and uses that data to power more than 30 new gameplay elements. This includes the ability to dive when heading a shot, simulating the feeling of impact with defenders, changing the height or angle of the ball with the player and being able to reflect or control the ricochet of a free kick. FIFA 22 also includes all-new Reality Kits, which bring the feel of the real world to the pitch; and Precision Defending, which matches your defence to a defender on the touchline in a dedicated Arena, supporting more unpredictable substitutions, greater chances for out-of-possession pressure, and more varied and confident attacking patterns from the opposition.**
- **FIFA Ultimate Team.**
- **UEFA Champions League - Up to 10,000 players representing 68 teams will participate in the ultimate European league tournament in FIFA 22. Twenty teams will be seeded into groups for a round-robin format, with the four group winners meeting in a knockout stage. Online competition will be in a VIP league format and you'll be able to play 2-on-2 games on the tournament's leaderboard. Also included is the addition of Play Now head-to-head online matches. This is a 2-round online**

tournament that allows you to challenge one of the real players and compete against one of their teammates from your own team.

- **Competition Mode Live tournament - Live tournaments can start in the same session as an interactive qualifying session or a series of one touch online matches against real players from the EA SPORTS FIFA Team. To start a tournament, enter the Tournament menu from the Competitions pull-down list and select Live. Click on the tournament you'd like to participate in and select the option to play.**
- **Heroes in the Community tournaments - Heroes in the Community tournaments let you create a squad of up to 22 real-life players and test that squad against all of the Ultimate Team Rivals* players in a spectacular online tournament. The winner will be awarded a four-star player card and the loser will be awarded with a two-star card. The competition is played in 3v3 action and uses the same gameplay elements**
